GitHub: github.com/azharhassan410 | LinkedIn: linkedin.com/in/azharhassan410

SUMMARY

Software and Web Developer building modern web applications, intelligent automation, and practical software solutions. Experienced in MERN stack, Python, REST APIs, Generative AI, and n8n workflows.

CORE TECHNICAL SKILLS

Frontend: React.js, React + Vite, JavaScript, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Python, REST APIs

Databases: MongoDB, MySQL, SQLite

AI & Automation: Generative AI, AI-powered Apps, n8n Automation, API Integration

Tools: Git, GitHub, VS Code, Postman, Microsoft Azure

FEATURED PROJECTS

1. Recruiter AI Assistant - AI-assisted candidate search, data processing pipeline, workflow tool
Technologies: React, Node.js, Generative AI, Python, REST APIs, Tailwind CSS
2. Tuition Management System - Full-stack student enrollment, fee payments, and academic tracking
Technologies: React, Node.js, Express.js, MongoDB, Tailwind CSS
3. Bike Workshop POS - Offline-first Point of Sale, local persistence, workshop repair logs
Technologies: JavaScript, React, SQLite / Local DB, CSS3
4. Hospital Management System - Role-based health platform, patient EMR, pharmacy inventory
Technologies: PHP, MySQL, JavaScript, Bootstrap

EDUCATION & CERTIFICATIONS

BS Computer Science - UET RCET Gujranwala Campus

Certifications: Generative AI, n8n Automation, REST APIs, Azure, Computer Vision
